

Contractor Estimator

Privacy Policy

Your privacy is important to us. It is **Softmagazin's** policy to respect your privacy regarding any information we may collect from you through our app, **Contractor Estimator**.

What information we collect?

We only collect information you provide. More detail about how we collect this informations are listed below:

- **Profile Information.** We collect information that you provide when you set up your Contractor Estimator account, such as your username, email address, and password. You can add other information to your profile, such as a phone, SSN or a profile photo.
- **Your Contacts.** When you choose to import contact informations, we will collect information from your device's phone book. We use this information to help you easily add customers to your account or update your invoice details. From your contacts we only import the followings: name, phone, email, business name, business number, bank, state and address.
- **Images.** We store your images (including profile picture, business logo and estimate images) to the server and delete it whenever you ask for. We do not upload any images without the intent of the user. We do not share or disclose any images that are stored on our servers.
- We use **TrueDepth API** technologies (ARKit, with automatic estimation of the real-world directional lighting environment) to measure the environment. The only use of this information is to provide valuable user features. None of the information collected by the TrueDepth API ever leaves the user's device. We do not share information with third parties, do not store or process in any other way the data which we accessed and used via TrueDepth API.

How do we use your informations?

We only ask for personal information when we truly need it to provide a service to you. We collect it by fair and lawful means, with your knowledge and consent. We also let you know why we're collecting it and how it will be used.

- We only retain collected information for as long as necessary to provide you with your requested service.
- What data we store, we'll protect within commercially acceptable means to prevent loss and theft, as well as unauthorized access, disclosure, copying, use or modification.

- We don't share any personally identifying information publicly or with third-parties, except when required to by law.
- Our app may link to external sites that are not operated by us. Please be aware that we have no control over the content and practices of these sites, and cannot accept responsibility or liability for their respective privacy policies.
- You are free to refuse our request for your personal information, with the understanding that we may be unable to provide you with some of your desired services.

How do we secure the data?

Security of your information is important to us. We maintain appropriate technical, administrative, and physical security measures that are designed to protect your information from unauthorized access, theft, disclosure, modification, or loss. We regularly review our security measures to consider available new technology and methods.

- Connections and requests to our API is only done through Hypertext Transfer Protocol Secure (HTTPS).
- Passwords are hashed with random salts and stored securely in our database. We cannot read your passwords.

How users may request deletion of their data?

In order to delete all your data stored in the app, you can simply delete your account (from the profile section), which will delete your profile, associated profile settings, your clients and all of the information's associated with your account.

Privacy Policy Updates

We may amend or update this Privacy Policy from time to time. The "Last Updated" date at the top of this policy reflects the effective date of such policy changes.

Contact us
